PROFESSIONAL SUMMARY

Software Developer, Project Manager and Technical Lead with a B.Sc. in Computer Science, experienced in taking web and mobile products from requirements through development to production. Works directly with clients to translate business requirements into technical execution, coordinates project teams, and contributes hands-on to Flutter and React development.

EXPERIENCE

Project Manager & Technical Lead – QargoQuote **Jan 2024 – Present**

Qatar / Remote | B2B logistics platform | Web platform live at qargoquote.com; mobile app in development

- Work directly with the client to understand business requirements and define scope, estimates and delivery timelines.
- Translate requirements into technical tasks and product decisions for the development team.
- Assemble, manage and coordinate the project team across UI/UX, backend, Flutter and React development.
- Provide technical direction and help shape the architecture of the web platform and mobile app.
- Contribute hands-on to Flutter and React development: building features, integrating REST APIs and implementing real-time updates with Pusher.
- Helped take the web platform from early development through production; remain involved after launch in product and technical decisions.

Product stack: Flutter, React, REST APIs, Pusher; Laravel backend developed by the project's backend developer.

Flutter Developer – CarDit **Mar 2026 – Jul 2026**

Client project engagement | Saudi Arabia / Remote | Automotive services app, live on the App Store and Google Play

- Worked as a Flutter Developer in the project's development team, building features across the app's screens and user flows for iOS and Android.
- Developed within a Clean Architecture / MVVM structure using Bloc / Cubit, dependency injection and GoRouter navigation.
- Integrated REST APIs with Dio and connected Firebase services to the app's user and service flows.
- Built responsive UI that behaved consistently across device sizes on both platforms.

EDUCATION

B.Sc. Computer Science – Mansoura University **2019 – 2023**

Faculty of Computers and Information

SKILLS

Development: Flutter, Dart, React, REST APIs, Bloc / Cubit, MVVM / Clean Architecture, Firebase, Pusher, Dio, GoRouter, Git

Leadership & Delivery: Project Management, Technical Leadership, Client Requirements & Technical Planning, Team Coordination
